Pernix Group, Inc. Announces New Power Plant Contract in Fiji

LOMBARD, ILLINOIS – March 18, 2014 – Pernix Group, Inc. (OTCQB:PRXG) announced today that the Company’s wholly owned subsidiary, Pernix (Fiji) Ltd., has been awarded a US\$29 million contract by the Fiji Electricity Authority (FEA) to build a new 36 MW Power Plant adjacent to the Kinoya Power Station in Suva, Republic of Fiji. The contract scope includes the design, construction, installation and commissioning of a power house consisting of four (4) Heavy Fuel Oil power generating sets with associated auxiliaries. The engines are manufactured by Wartsila and are type W20V32 diesel engines.

Pernix Group has a long and successful tenure in the Fijian power industry, including having managed the expansion, upgrade and ongoing operations of the two largest power plants in Fiji over the past decade. Pernix currently operates and maintains those power plants under long-term contracts with FEA running through 2023, with over 72 MW of base load generation capacity. The new power plant is anticipated to be completed in 2015 and will supplement the current available capacity at the Kinoya Power Station.

Nidal Z. Zayed, CEO of Pernix Group, stated that, “We are extremely pleased to broaden our relationship with FEA, and we appreciate their continued trust in Pernix. This project is critical to the security of power generation in Fiji, and we will deliver an outstanding product. We will approach this assignment with our traditional focus on quality, safety and timely delivery that has characterized our success in Fiji and throughout the Pacific region for the past 17 years. Pernix remains fully committed to meeting the power generation needs of the Fijian people, and we look forward to our continuing and expanding role in the country and the neighboring region for many years to come.”

About Pernix Group, Inc.

Pernix Group, Inc. is a global company with its headquarters in Lombard, Illinois. The

Company is engaged in two primary operating business segments: construction services as a Design-Build General Contractor in the Federal and Government market; and building, managing and investing in Power Generation Projects as an Independent Power Producer.
